100W Constant Power Mode LED Driver

XBG-100 series

User's Manual

AC input with fixed cable

Features

- Full power output at 70~100% constant current range operation
- \cdot Wide input range 90 \sim 305VAC with active PFC function
- Metal housing design with IP67
- Multiple dimming functions: 3 in 1(0-10V/PWM/Resistor)
- · Dimming circuit with Isolated for latest safety regulation
- Surge protection with 6KV/4KV
- Typical lifetime>50000 hours and 5 years warranty
- · AC input cable with connector for flexible installation

Applications

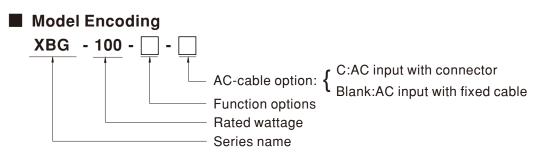

- · LED bay lighting
- · LED stage lighting
- LED spot lighting
- Explosion-proof lighting
- Type HL LED driver for class I division 2.

Description

XBG-100 series is a 100W AC/DC LED driver featuring the constant power mode. XBG-100 operates from 90~305VAC and offers with different rated current ranging between 1750mA and 2780mA. Thanks to the high efficiency up to 92%, with the fanless design, the entire series is able to operate for $-40^{\circ}C + 85^{\circ}C$ case temperature under free air convection. The design of metal housing and IP67 ingress protection level allows this series to fit both indoor and outdoor applications. Moreover the innovative environment-adaptive capability allows this series to reliably light on the LEDs for all kinds of application environments. XBG-100 series comply with the latest version of IEC61347/IEC60598-1 and UL8750 international safety regulations. The output and dimming circuit are also completely in accordance with the new regulations with isolation to ensure the safety of both users and luminaire system during installation.

Caution

- Please inspect the appearance of the driver if the package is damaged. There should not be any cracks.
- $\cdot\,$ Please do not drop or bump the driver.
- $\cdot\,$ All screws including the suspension screw should be paired with a spring washer and locked tight.
- The entire luminaire, including the driver, should be limited to 10Kg or less.
- $\cdot\,$ The luminaire should be cautiously protected from damage due to shock throughout packaging and transportation.
- Please thoroughly follow the preceding cautionary notes to prevent the luminaire from falling, leading to injuries.
